

EL AL Signs Codeshare Agreement With Azerbaijan Airlines

EL AL has signed a codeshare agreement with Azerbaijan's national airline, Azerbaijan Airlines.

The agreement includes a codeshare on Azerbaijan Airlines flights from Tel Aviv, which operate twice daily from Tel Aviv to Baku. Tickets for flights under this cooperation are available for purchase on both companies' websites or through travel agents.

As part of the cooperation, customers of both companies will be able to fly on flights operated by EL AL and Azerbaijan Airlines under a shared code. EL AL's code (LY) will be added to flights operated by Azerbaijan Airlines from Tel Aviv to Baku and in the future to their connecting flights. EL AL's frequent flyer members will be able to earn points on flights to Baku.

The cooperation with Azerbaijan Airlines joins other collaborations EL AL has signed over the past year, including a partnership with Delta Air Lines, which includes codeshare flights through various routes to North America, including connecting flights to various destinations in the Americas and mutual benefits for frequent flyer program members; a codeshare agreement with Air France allowing codeshare flights on the Tel Aviv-Paris route, a codeshare agreement with KLM allowing codeshare flights on the Tel Aviv-Amsterdam route, in addition to a frequent flyer program agreement with the Flying Blue loyalty program shared by KLM and Air France, providing mutual benefits for program members. Additionally, a cooperation agreement was signed with Virgin Atlantic, including codeshare flights on the Tel Aviv-London route and mutual benefits for frequent flyer program members.

Shlomi Zafrany, Vice President of Commercial and Industry Affairs at EL AL: "The cooperation we signed with Azerbaijan Airlines is another step in implementing the company's strategic plan, under which we are working to expand the route network from Tel Aviv also by creating collaborations with major and leading airlines worldwide, alongside expanding the flight schedule to popular destinations."

Jamil Manizade, Chief Commercial Officer at Azerbaijan Airlines: "This partnership is a significant step in expanding our route network and creating long-term collaborations. It is a joint initiative that will allow us flexibility and accessibility and provide both our customers and EL AL customers with more flight options, exposure to additional destinations, and increased passenger traffic between the two countries."
